UAV Services

Monteath & Powys have embraced UAV surveying techniques to provide fast, safe and efficient data capture for a range of applications.

Leveraging off our 3D laser scanning capability, we can process large data sets from a variety of UAV applications.

Our capabilities include:-

- Stockpile calculations.
- Open cut pit volumes.
- Pit wall inspections.
- Photogrammetric applications.
- Point cloud generation.
- Geo-referenced ortho-mosaics.
- Environmental monitoring.
- Heritage area reporting.

Accurate aerial surveys with the backing of a team of Registered Surveyors
