

Capabilities

- Short run, complex electro-mechanical complex systems
- Mature supply chain to support short manufacturing runs
- Niche PCB design and manufacture
- Skilled electronics and electrical technicians
- SCADA & PLC programming for mission critical systems
- Ruggedised packaging of electronic systems for harsh environments
- Understanding and application of Defence Systems Engineering processes
- Project Management

Discriminators

- Mature supply chain to support short manufacturing runs
- Ideally suited for short-run, complex systems for harsh environments
- Ideal Australian partner for overseas contracted equipment

Key Customers

- Saab Underwater Systems – ATC Winch for Danish Navy & Tether Connector Mk III manufacture
- Elemental Energy Technologies Limited – Sea Urchin Tidal Turbine technology prototype manufacture
- UVS Pty Limited – Surface Control Unit Manufacture
- Thales – Portable Operator Control Board manufacture for Royal Australian Navy

Key Partners

- Saab Seaeye – Commercial ROV Australian distributor
- MacArtney – Connector and cable distributor

Quality Approvals Awards:

- AS/NZS ISO 9001:2008 certified by SAI Global
- Defence Recognised Supplier (Strategic Services)
- Defence Industry Security Program (SECRET)
- Operates to AIPM Project Managed Organisation (PMO) Standards
- Supplier Continuous Improvement Program (Signed March 2011)
- Commitment to LEAN principles
- Overall Winner, Engineering Excellence Award 2012, Newcastle Division
